TECHNICAL SUMMARY

DevOps & Cloud Engineer with hands-on experience in AWS infrastructure management, CI/CD automation, and infrastructure-as-code implementation. Proficient in deploying scalable cloud solutions using AWS (EC2, S3, VPC, IAM, CloudWatch), containerization with Docker, and infrastructure provisioning via Terraform. Developed CI/CD pipelines with Jenkins/GitHub Actions to streamline deployments. Certified in AWS Cloud Development and Security Foundations. Passionate about optimizing system performance and implementing DevOps best practices in production environments.

TECHNICAL SKILLS

- **Cloud Platforms:** AWS (EC2, S3, CloudWatch, RDS, SNS, DMS, EBS, Amazon Aurora, CloudFront, CloudTrail, Amazon Route 53, Auto Scaling, ELB, AMI, CLI, Lambda)
- **Cloud Security:** AWS(VPC, IAM, MFA, WAF)
- **Containerization & Version Control :** Docker, Git, GitHub
- **Operating Systems:** Linux
- **Servers :** Apache , Nginx , SSH , FTP , DNS , DHCP
- **CI/CD & Automation:** Jenkins, GitHub Actions, Bash Scripting
- **Infrastructure as Code (IaC) & Configuration Management:** Terraform, Ansible
- **Databases:** SQL Server, MySQL, MongoDB
- **Programming/Scripting:** Java, C/C++ , HTML, CSS, React JS, .Net Core

CERTIFICATIONS

- [AWS Cloud Developing – AWS Academy \(2024\)](#)
- [IBM Cloud Essentials – IBM \(2025\)](#)
- [Cloud Security Foundations – AWS Academy\(2024\)](#)
- [Advanced Programming With C++ – IBM\(2025\)](#)

PROFESSIONAL EXPERIENCE

Zeetron Networks Pvt.LTD.

DevOps Intern

Feb 2025 – July 2025

- Collaborating with the DevOps team to streamline infrastructure management using AWS services, including EC2, S3, RDS, and CloudWatch.
- Assisting in the containerization of web applications through Docker, and managing their deployment on AWS using Terraform.
- Managing and configuring CI/CD pipelines to automate the deployment and integration of code using Jenkins and GitHub Actions, reduced deployment time by 40% using CI/CD.
- Developing and maintaining infrastructure as code (IaC) scripts to ensure scalable and efficient deployment across cloud environments.
- Working with various AWS services like CloudFront, IAM, and VPC to optimize security and performance.
- Participating in troubleshooting and optimizing the overall infrastructure for improved system performance and scalability.

PROJECTS

Containerized Web Application Deployment using Jenkins CI/CD on AWS

Tech Stack: Jenkins, GitHub, Docker, Docker Compose, Nginx, AWS EC2, CloudWatch, Auto Scaling, Linux

- Developed a complete CI/CD pipeline using GitHub, Jenkins, and Docker to automate deployment of a web application on AWS EC2.
- Configured Jenkins on EC2 to **auto-pull code from GitHub**, build Docker images, and deploy containers using **Docker Compose**.
- Used **Nginx** as a reverse proxy and set up **CloudWatch** for monitoring and **Auto Scaling Group** for scalability.
- Resolved permission issues by adding Jenkins user to Docker group for secure build execution.

AWS Infrastructure Setup

Tools & Technologies: AWS EC2, S3, VPC, IAM, CloudWatch, Apache HTTP Server, AWS CLI

Description: Implemented a AWS cloud infrastructure to simulate a production environment and host a static website with monitoring and secure access.

- Launched an **EC2 instance**, installed Apache server, and hosted a static HTML website.
- Designed a **custom VPC** with public subnet, internet gateway, route table, and security groups.
- Configured an **S3 bucket** for file storage and static content delivery.
- Managed **IAM roles and policies** to control access to AWS resources.

FOOD RECIPE WEBSITE [GitHub](#)

Technologies: REACT JS, NODEJS, EXPRESSJS, MONGODB

- Developed a full-stack recipe-sharing platform with user authentication, likes/saves, and category filtering.
- Built **RESTful APIs** with **Express.js** and **MongoDB** for recipe management.
- Designed a responsive UI using **React.js** and **TailwindCSS**.

EDUCATION

JECRC UNIVERSITY

Masters of Computer Application– (MCA)
Specialization (Cloud Computing - AWS)

Aug 2023 - Present

Jaipur, Rajasthan

UNIVERSITY OF RAJASTHAN | Sri Balaji College of Engineering and Technology
Bachelors of Computer Application – (BCA)

July 2020 – May 2023

Jaipur, Rajasthan

STRENGTHS

- Problem-Solving Skills
- Strong Communication Skill
- Quick Learner
- Honesty

ADDITIONAL INFORMATION

Languages: English, Hindi
